How to Attach

Caution: If you do not wish to lose the recorded data, please finish this operation in less than 1 minute from the time that you remove the battery from the RTR-5 Series or RVR-52 unit. (We suggest that you download recorded data before attaching the adaptor. For details about downloading data, see the RTR-57C or the software user's manual)

1. Remove the back lid from the RTR-5 Series or RVR-52 unit, open the unit and take out the battery.

2. Attach the double-sided adhesive tape to the back of the drying agent and fix to the inner side of the RTR-05B1.

3. Insert the accompanying lithium battery into the battery pack.

4. Check the RTR-05B1 rubber packing for abrasions, cuts and dirt. If the packing is in good condition, insert into the grooves making sure that it is properly fit.

Caution:

- Abrasions or dirt may cause small opening to occur through which water or other foreign objects can enter and cause damage to the unit.
- The rubber packing is a special item and is not sold in stores. If it becomes damaged, please replace it by ordering [Maintenance Set](TR-00P1) or by ordering a new [Large Capacity Battery Pack Battery Set](RTR-05B2)

About this Product

This product is a Large Capacity Battery Pack especially designed for use with our RTR-5 Series and RVR-52 data loggers.

Caution: If this product is used in combination with any product other than those specified above, T&D Corporation shall in no manner, whatsoever, guarantee the operation of this product.

Package Contents

The package contains the following:

Specifications

Power	: Lithium Battery × 1 (LS26500)
Battery Life	: about 2 years and 6 months (Monitoring at 1 minute interval=about 20 months ^{※1})
Waterproof Capability	: Splash proof
Weight	: about 75g (including lithium battery)
Operating Temperature	: -40-80°C ^{※2}

Note:

- ※ 1 : Battery Life varies depending on measuring environment, recording interval, transmission frequency, and ambient temperature. The battery life estimated here is calculated using a new battery under normal operating conditions and in no way should be understood as a guarantee of battery life.
- ※ 2 : Operating temperature depends on the specifications for the data logger being used.

5. Making sure that the 2 electrical wires are in the grooves as in diagram A (below left), insert A (as in right diagram) into the battery space of the RTR-5 Series or RVR-52 unit. Close the case and fasten the screws.

Caution: If the electrical wires are not properly in their grooves, the lid may not completely close. Please make sure that the wires are in their grooves before continuing.

If no recording settings have been made before carrying out this operation, recording will begin from the time section A is inserted into the battery space.

※ If, after inserting section A, nothing appears in the unit's LCD display, please repeat the steps above and attach again. For details about the display, see the appropriate user's manual for the RTR-5 Series or RVR-52 unit.

6. If necessary, put on the attachment hook.

◆ Notices about this User's Manual

- Please read this manual carefully before using the product.

◆ Notices about this User's Manual

※ Please carefully observe the following safety measures when using our product.

To prevent any loss or damage to our customers, other people and / or property, and to ensure the proper use of our products we ask that before using our product you carefully read, understand and follow the safety rules and precautions for our products as outlined below.

[Explanation of Warning Symbols]

	DANGER	These entries are actions that absolutely under no circumstance should be taken. The taking of such an action may cause serious personal physical damage or death.
	CAUTION	These entries are actions that if taken may lead to physical injury or damage to persons or things.

Explanation of Picture Symbols]

	This symbol denotes an important warning or caution. Inside or near the symbol will appear another symbol giving details. (EX:  stands for FIRE OR ELECTROCUTION)
	This symbol denotes a forbidden action. Inside or near the symbol will appear another symbol giving details. (EX:  stands for DO NOT TAKE APART)
	This symbol denotes an action that you must take. Inside or near the symbol will appear another symbol giving details.

⚠ DANGER

Do not take apart, repair or modify the main unit. It may cause fire, electrocution or damage. Ask the shop where you purchased the product or T&D Corporation to carry out any repairs.

If any smoke or strange smells are emitted from the unit, immediately cease using it. Continued use may cause fire, electrocution or damage.

Do not use any batteries other than those that are recommended. It may cause fire or damage.

If water or a foreign object enters the case, immediately cease using it.

Store all batteries, sensors and Thermo Recorder units out of the reach of children. It is dangerous to swallow batteries.

Please be careful when using the units in overly hot or cold environments; touching the units may cause burns or frostbite.

⚠ CAUTION

T&D is not responsible for any malfunction or trouble caused by the use of our product or any problem caused by the malfunction of our unit. Please be fully aware of this before using our product.

This product has been designed for private or industrial use only. It is not for use in situations where strict safety precautions are necessary such as in connection with medical equipment whether directly or indirectly.

Do not drop or expose the unit to strong impact.

Battery terminals may provide insufficient contact due to age or vibration. Please be careful not to lose data due to insufficient contact.

Battery life depends on the measurement environment, communication frequency, recording interval and battery quality.

Pay attention to water leakage or foreign objects entering into the unit case as in the following cases.

- The case was closed with dust, hair, etc., on the rubber packing or in the groove for the packing.
- The rubber packing becomes damaged. (In this case, please purchase the optional maintenance set.)

Remove batteries from any unit that is not to be used for a long period of time. Batteries left in a unit not being used for a long time may leak and cause a malfunction.

Do not use or store the unit in places such as listed below: It may cause electrocution, fire or damage to the unit or to your computer.

- Areas exposed to direct sunlight.
- Areas exposed to water or high-pressure water flow.
- Areas exposed to organic solvents and corrosive gas.
- Areas exposed to strong magnetic fields.
- Areas exposed to static electricity.
- Areas exposed to fire or overheating.
- Areas exposed to excessive dust or smoke.
